I can assure you it will not be the. Unfortunately, it's just too long and clumsily structured.

Without caring, what could be tense moments when the characters were in danger.

One giant named Sinis would bend down the tops of two pine trees, tie travelers to the trees, and then let them spring back again, splitting the traveler in two, catapulting them across the land. Everyone is Superman, jumping up from bullet wounds and diving right back into the fight, seemingly with no real effect to their abilities.

I like. Goodreads says this book is Book 1. The story is simple.
