Linguistic anthropology. As she still wanted to communicate with people she knew, she began almost exclusively using the sign language she learned while living with the Riglers. Testing of Genie's language occurred until the end of but in mid, when she was 18 years old, authorities placed her in a foster care setting which subjected her to extreme physical and emotional abuse, causing her to become afraid to speak and to rapidly begin losing her newly acquired language skills. When these children begin to use language, they appear to be aware of the social Invisible genealogies: a history of Americanist Anthropology. Norwood: Ablex. The Hague: Mouton. When children acquire the languages of their speech communities, the languages come
